

## SHANGHAI OFFICE – The best business environment in China

With a history of more than 700 years, Shanghai was once the financial center of the Far East regions. Since the reforms that began in 1990s, great changes have taken place in the city.

Today, with a population of 24 million people, Shanghai has become the largest economic center in China and an important port city. The fluent communications and transport systems, the exchanges between people, commodities, capital, technology and information have made Shanghai a vibrant city.

Most of our supplier base is located around the Shanghai area including the Zhejiang and Jiangsu provinces.

GPS Shanghai is located in the district of Pudong, next to the S20 Outer Ring Express Way and within the ZHONGTIAN SCIENCE AND TECHNOLOGY PARK. The office can be reached within 25 minutes from Pudong Airport and 15 minutes from the financial center in Pudong by Taxi.

The GPS Shanghai Office in Pudong is a first address in business communication in China between European customers, Chinese companies and the professional GPS engineers.
