

Die Cut Pinnacle tooling

Unlike conventional die-cut with individual cutter blade arranged like a jig-saw puzzle. Pinnacle tool are directly machined onto hard steel, offering unparallel precision, complicated profiling and extended tool-life. Modern day electronics are compact and uses flat polyamide, polyester for mobile phone, membrane switch, flexible cable, camera shutter, adhesive tape

Accuracy +/- 0.005mm.
Blade height accuracy +/- 0.01
Hardness 52HRC
For material thickness between 0.8 to 2.5mm

Precise, productive conversion into final product

Multi-cavities for cost reduction and productivity. Can cater for cutter blades of varying height within the same part.
